SPONSORSHIP PACKAGE 2019/2020

# About SUBC

The UBC Submarine Design Team works together to design, build, and race fully submerged, single-occupant submarines propelled entirely by the pilot. Every year we compete in the International Submarine Races (ISR) and European International Submarine Races (eISR).

Students from a broad range of disciplines, including mechanical, electrical, materials and engineering physics are united by their passion for marine technology and solving complex problems.
